

Audio to Video Guide

1. Create a New Release
2. Create a Music video type of release
3. Click the “Create Album Artwork” Option
4. Select the artist you will create this album artwork video for
5. Upload your audio file.
6. Set your background by uploading artist artwork* or using our standard backgrounds.
**All artwork must have a minimum size of 900px by 900px*
7. Edit your video text settings to your liking
8. Select apply to app if you have multiple audio tracks that will use the same settings you just created.
9. Click Save & Finish
10. Follow your regular publish release flow.

The image shows a screenshot of the video text settings form. It includes fields for 'ARTWORK' (with an upload button), 'SONG NAME' (Edward Sharpe & The Magnetic Zeros Home (Official Video)), 'ARTIST NAME', 'SHOW TEXT' (Your Artist), 'FONT' (Arvo), 'COLOR' (#FFFFFF), and 'SHADOW' (WHITE, BLACK, NONE). A note below the color field says 'Click the eye-dropper to get a color from the picture.'
